

Organisation Agreement Form
WSDM 2019 Task Intelligence Workshop
October 2018

The _____, an organisation of approximately _____ people engaged in research and development of lifelog and information retrieval systems which is part of:

Corporation/Partnership/Legal Entity: _____

Official Mail Address: _____

Email of Contact: _____

Phone: _____

applies to receive/use the data designated as WSDM2019-TI Collection subject to the terms and conditions listed below. In what follows “the project” refers to the WSDM2019-TI workshop task and follow-on activities. The understandings, terms and conditions apply equally to all, or part of, the information.

WSDM2019-TI comprises image files and metadata gathered by a number of volunteers during 2018. WSDM2019-TI is being made available to participants for use in the project, or in project related research.

Given the nature of WSDM2019-TI, it is impossible for us to fully review all of the files or to confirm the nature of the files or the data in the archive. The project organisers are not responsible for the data contained therein. Some of the data in WSDM2019-TI may contain objectionable material. Any user that feels that any data within WSDM2019-TI is objectionable is encouraged to contact the organisers immediately. We reserve the right to remove any file from WSDM2019-TI for any reason whatsoever.

The terms and conditions that govern the use of WSDM2019-TI are as follows:

- The data must only be used in the project, or in project related research.

- If notified by the organisers that a given file must be removed from the dataset, the data holder will immediately destroy all instances of that file. The data holder will maintain all records necessary to carry out such an immediate deletion.
- The task organisers (and their legal entities) do not accept any responsibility for the accuracy of the data or any metadata associated with the WSDM2019-TI dataset.
- The anonymity of the individuals represented in the WSDM2019-TI dataset must be respected. It is therefore not acceptable to try to identify individuals (either the data donors, or bystanders contained therein).
- The data must not be published online or via any other means. A sample of the data will be made available for publishing online or otherwise to all participants.
- Each organisation, and the individuals associated with that organisation, must take care to securely store the WSDM2019-TI data and to respect the privacy of the individuals involved in gathering the data and represented in the data.
- Every individual who works with the WSDM2019-TI dataset must sign an individual data release form and this must be kept by the organisation, and made available to organisers if requested to do so.
- For any publications emanating from research involving the WSDM2019-TI dataset, the appropriate publication describing the dataset should be referenced¹.
